REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Administrative Board of Directors
Beaver County Hospital Special Service District No. 3
Milford, Utah 84751

We have reviewed the accompanying financial statements of the governmental activities of Beaver County Hospital Special Service District No. 3 (District), a component unit of Beaver County, as of and for the year ended December 31, 2006, which collectively comprise the District's basic financial statements as listed in the table of contents, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management of the District.

A review consists principally of inquiries of Entity personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with generally accepted accounting principles.

The management's discussion and analysis and budgetary comparison information, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. Such information has not been subjected to the inquiry and analytical procedures applied in the review of the basic financial statements, but was compiled from information that is the representation of management, without audit or review. Accordingly, we do not express an opinion or any other form of assurance on the supplementary information or management's discussion and analysis.

NOTE 1. Summary of Significant Accounting Policies

Nature of Organization

Beaver County Hospital Special Service District #3, (the Service District) is a component unit of Beaver County, Utah. The Service District was established by resolution of the Board of County Commissioners of Beaver County on October 4, 1982, pursuant to the provisions of Chapter 23, of Title 11, Utah Code Annotated, 1953, to provide hospital services to the territory which includes the municipalities of Milford City and Minersville Town. Three members of the Control Board of the Service District are appointed by Beaver County Commissioners, and each community appoints a board member.

Basis of Presentation – Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

The District's only fund is the general fund.

Basis of Accounting

Government-wide Financial Statements - The statement of net assets and the statement of activities display information about the District, the primary government, as a whole.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between expenses and program revenues for each program of the governmental activities. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program is self-financing or draws from the general revenues of the District.

NOTE 1. Summary of Significant Accounting Policies, Continued

Net assets should be reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Fund Financial Statements - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. The only fund of the District is the general fund.

Governmental Funds - All governmental funds are accounted for using the modified accrual basis of accounting and the current financial resources measurement focus. Under this basis revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

Revenue Recognition

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available (i.e., collectible within the current year or within one month of year-end and available to pay obligations of the current period). This includes investment earnings and property taxes.

Expenditure Recognition

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on general long-term debt which has not matured are recognized when paid. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

Budget Policy and Process

The Service District adopts an annual budget for the General Fund. The Service District is required to submit the budget to the Utah State Auditor's Office after it has been adopted by the Board. Budgetary information has not been amended during the year. Budget appropriations lapse at year-end.

Property Taxes

The mill levy for property taxes is established by Beaver County. Property taxes attach as an enforceable lien on property as of January 1, and all unpaid taxes become delinquent November 30 of the year following the date of levy. The Beaver County Treasurer collects all tax revenues due to the Service District. The amounts are remitted on a monthly basis to the District.

NOTE 1. Summary of Significant Accounting Policies, Continued

Contributions

The purpose of the Service District is to provide financial services to the area included in its boundaries. In keeping with this purpose the Service District provides property and equipment and other funds for operating costs to Milford Valley Healthcare Services.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Capital Assets and Depreciation

General capital assets are those assets not specifically related to activities reported in proprietary funds. These assets are reported in the governmental activities column of the government-wide statement of net assets.

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. General capital assets are long-lived assets of the District as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized (recorded and accounted for) in the General Capital Asset Account Group. Infrastructure such as streets, traffic signals and signs are capitalized. The District has no infrastructure assets. The valuation bases for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement cost.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 30 years; equipment, 3-10 years.

NOTE 1. Summary of Significant Accounting Policies, Continued

Reservation of Fund Balance

A portion of the fund balance in the general fund is restricted for retirement of debt principal and interest.

Net Assets

Net assets is the difference between assets and liabilities. Net assets invested in capital assets, net of related debt are capital assets, less accumulated depreciation and any outstanding debt related to the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are legal limitations imposed on their use by District legislation or external restrictions by other governments, creditors or grantors.

NOTE 2. Reconciliation of Government-Wide and Fund Financial Statements

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets:

The governmental fund balance sheet includes a reconciliation between total governmental fund balances and net assets of governmental activities as reported in the government-wide statement of net assets. The differences primarily result from the long-term economic focus of the statement of net assets versus the current financial resources focus of the governmental fund balance sheet. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$(326,000) difference are as follows:

Bonds payable	\$ (326,000)
Capital lease	-
	<hr/>
Net adjustment to decrease fund balance - total governmental funds to arrive at net assets - of governmental funds	<hr/> \$ (326,000) <hr/>

NOTE 2. Reconciliation of Government-Wide and Fund Financial Statements, Continued

When capital assets (property, plant & equipment) that are to be used in governmental activities are purchased or constructed, the cost of those assets are reported as expenditures in governmental funds. However, the statement of net assets includes those capital assets among the assets of the district as a whole.

Cost of capital assets	\$ 1,179,435
Accumulated depreciation	<u>(635,963)</u>
Net adjustment to increase fund balance - total	
governmental funds to arrive at net assets -	
governmental activities	<u><u>\$ 543,472</u></u>

Explanation of differences between governmental fund statement of revenues, expenditures, and changes in fund balance and the government-wide statement of activities:

The governmental fund statement of revenues, expenditures, and changes in fund balance includes a reconciliation between net changes in fund balances-total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. The first element of this reconciliation states that capital outlays are reported in the governmental funds as expenditures while the government-wide statement of activities allocates these costs over the useful lives of the assets as depreciation. While shown in the reconciliation as the net difference, the elements of this difference are as follows:

Capital outlay	\$ 58,500
Depreciation expense	<u>(87,685)</u>
Net adjustment to decrease net changes in fund balance--total	
governmental funds to arrive at changes in net assets of	
governmental funds	<u><u>\$ (29,185)</u></u>

NOTE 4 Deposits and Investments

Deposits and investments of the District as of December 31, 2006 consist of the following:

Deposits	
Cash in bank	\$ 15,134
Investments	
State treasurer's investment pool	<u>455,001</u>
Total deposits and investments	<u><u>\$ 470,135</u></u>

A reconciliation of deposits and investment is as follows:

Cash - unrestricted	\$ 434,188
Cash - restricted	<u>35,450</u>
Cash and cash equivalents	<u><u>\$ 469,638</u></u>

The State of Utah Money Management Council has the responsibility to advise the State Treasurer about investment policies, promote measures and rules that will assist in strengthening the banking and credit structure of the state and review the rules adopted under the authority of the State of Utah Money Management Act that relate to the deposit and investment of public funds.

The District follows the requirements of the Utah Money Management Act (Utah code, Section 51, chapter 7) in handling its depository and investment transactions. The Act requires the depositing of District funds in a qualified depository. The Act defines a qualified depository as any financial institution whose deposits are insured by an agency of the Federal Government and which has been certified by the State Commissioner of Financial Institutions as meeting the requirements of the Act and adhering to the rules of the Utah Money Management Council.

Deposits

Custodial Credit Risk

For deposits this is the risk that in the event of a bank failure, the government's deposit may not be returned to it. The District does not have a formal policy for custodial credit risk. As of December 31, 2006, none of the District's bank balance of \$15,134 was exposed to custodial credit risk because it was uninsured and uncollateralized.

NOTE 4 Deposits and Investments, Continued

Investments

The Money Management Act defines the types of securities authorized as appropriate investment for the District and the conditions for making investment transactions. Investment transactions may be conducted only through qualified depositories, certified dealers, or directly with issuers of the investment securities.

Statutes authorize the District to invest in negotiable or nonnegotiable deposits of qualified depositories and permitted negotiable depositories; repurchase and reverse repurchase agreements; commercial paper that is classified as "first tier" by two nationally recognized statistical rating organizations, one of which must be Moody's Investor Services or Standard & Poor's, bankers' acceptances; obligations of the United States Treasury including bills, notes, and bonds; bonds, notes, and other evidence of indebtedness of political subdivisions of the State; fixed rate corporate obligations and variable rate securities rated "A" or higher, or the equivalent of "A" or higher, by two nationally recognized statistical rating organizations; shares or certificates in a money market mutual fund as defined in the Act; and the Utah State Public Treasurer's Investment Fund

The Utah State Treasurer's Office operates the Public Treasurer's Investment Fund (PTIF). The PTIF is available for investment of funds administered by any Utah public treasurer.

The PTIF is not registered with the SEC as an investment company. The PTIF is authorized and regulated by the Money Management Act, Section 51-7, *Utah Code Annotated, 1953*, as amended. The Act established the Money Management Council which oversees the activities of the State Treasurer and the PTIF and details the types of authorized investments. Deposits in the PTIF are not insured or otherwise guaranteed by the State of Utah, and participants share proportionally in any realized gain or losses on investments.

The PTIF operates and reports to participants on an amortized cost basis. The income, gains, and losses – net of administration fees, of the PTIF are allocated based upon the participant's average daily balance. The fair value of the PTIF investment pool is approximately equal to the value of the pool shares.

As of December 31, 2006 the government had the following investments and maturities:

Investment Type	Fair Value	Investments Maturities (in Years)			
		Less than 1	1-5	6-10	More than 10
State of Utah Public Treasurer's Investment Fund	\$ 455,001	\$ 455,001

NOTE 4 Deposits and Investments, Continued

Interest rate risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District's policy for managing its exposure to fair value loss arising from increasing interest rates is to comply with the State's Money Management Act. Section 51-7-11 of the Act requires that the remaining term to maturity of investments may not exceed the period of availability of the funds to be invested.

Credit risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's policy for reducing its exposure to credit risk is to comply with the State's Money Management Act.

At December 31, 2006 the District had the following investments and quality ratings:

Investment Type	Fair Value	Quality Ratings			
		AAA	AA	A	Unrated
State of Utah Public Treasurer's Investment Fund	\$ 455,001				\$ 455,001
Total fair value	<u>\$ 455,001</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 455,001</u>

NOTE 6. Lease Revenue

Debt service payments on the Series 1991 and Series 1996 Lease Revenue Bonds are financed by leasing the encumbered facilities to Milford Valley Healthcare Services, as explained in Note 5. The financing for the 1991 Lease Revenue Bonds is for a term of 26 years and continues through January 1, 2016, for the Milford hospital, home health and medical clinic space. The financing for the 1996 Lease Revenue Bonds is for a term of 30 years and continues through April 1, 2025 for the Minersville Medical Clinic. The yearly lease payments of \$29,000 received from Milford Valley Healthcare Services are due and payable on or before December 31, of each year, beginning in 1992. In 2006, Milford Valley Healthcare Services paid the annual lease payment for 2005 & 2006.
